

MEET LUMBER DEALERS AGREE TO NEW BODY SCHEME

Plans for the organization of a national association of wholesale lumber dealers, in which dealers in all kinds of lumber will be represented, have been discussed by many Memphis dealers, according to statements made Friday after a visit of L. B. Putnam to Memphis.

Mr. Putnam is director of advertising and trade expansion for the Southern Pine association and was present at the final session of the convention of the Southern Retail Lumber Dealers' association Thursday night. Many local dealers agreed to join the organization before he left.

A mass meeting will be held in Chicago May 19 which the wholesalers are to attend and the organization may be formed. It has been suggested that the new body be named the American Lumber association.

Many dealers insist that the fault with the present situation in the lumber industry is that only dealers of the same kind of woods meet at the same time. Under the proposed plan, manufacturers of all kinds of lumber would be associated.

One of the purposes of the new organization, it is claimed, will be to decrease the cost of distribution of lumber. This now is eight per cent of the total cost. The national distribution bill is \$22,000,000 which the lumbermen believe is too high.

Mr. Putnam will make a tour of the country between now and May 19 in the interest of the proposed organization. Two hundred dealers already have agreed to become members, he says.

Rotary Club To Thank Lumbermen For Entertainment

One of the features of the regular meeting Tuesday of the Rotary club will be the reading by Joseph Newburger of the declaration of thanks to be presented to the Lumbermen's club for entertainment at the banquet and cabaret at Hotel Gaiety recently.

Freight Shipments To Be Returned To Pre-War Schedule

Re-establishment of the Blue Ridge Dispatch assuring freight shipments from New York to Memphis in five days, the pre-war schedule, will be effected as soon as plans now under consideration by that organization and officials of railroads here can be perfected.

Paulson Plough, of Cincinnati, has been in Memphis several days negotiating with Memphis officials. He left Friday for other points in this territory but will return within a week and probably will be located here for a time until the dispatch line is permanently revived.

The roads associated in the dispatch line are: Central Railroad of New Jersey, the Louisville & Nashville, Chesapeake & Ohio and the Pennsylvania systems.
